

Dear IDG friends,

Happy birthday!! Yes, the seventh day of Chinese New Year is known to be the birthday for everyone, isn't it great!!

I would like to take this opportunity to welcome many of our new members and share the upcoming Inner Development Goal activities in Feb from Hong Kong, Asia and globally.

Wish you all the best in the year of Dragon and look forward to seeing in some of the events below!

## IDG Global Gathering – The Arts as a Powerful Tools for Inner Development on 20<sup>th</sup> of Feb

How Creative Engagement Can Bring the Inner Development Goals to Life? This global gathering on 20 Feb at 1600 CET will be joined by experts from Israel/Palestine, Argentina, Scotland and India, who will share how their innovative practices are transforming lives and hold much promise for the realisation of the IDGs for individual impact that builds into systemic change.

## IDG Asia Wisdom Network – Monthly Gathering on 28<sup>th</sup> of Feb

The IDG Asia Wisdom Network ('Network') as initiated by the IDG Hub of Hong Kong has expanded its reach to over 20 hubs spanning across more than 10 countries in Asia, and individuals with Asian root from different continents since July last year. The Network is now open to all members from the locational hub to facilitate their direct participation to the monthly meeting and other resources / activities within the Network. The coming meeting will be on 28 Feb at 1900 HKT, fill the following information collection form to stay tuned of meeting details now.

Join the Network here : <https://forms.gle/jhacQ17SV4ZuC7s86>

## IDG Hong Kong Hub – Philosophy of Deep Ecology on 29<sup>th</sup> of Feb

In 2024 IDG Hub of Hong Kong will organize series of social gathering, learning opportunities and practical activities around the IDG framework and skills. Join us on 29 Feb at 1900 HKT to meet liked-mind IDG friends and gain insight on the philosophy of Deep Ecology and some practical skills to help us stay motivated and energised in our efforts towards thriving life. This workshop is suitable for those who care about what kind of planet we will be leaving for future generations, want to get motivated to act for humanity and the environment; might be feeling overwhelmed by information overload; and are curious about Deep Ecology and how it might be useful in personal and environmental activism.

Find out more and register here: <https://forms.gle/zGkfUSk1UWvyogNZ8>

## One BIG Question Survey

In 2015, the United Nations created 17 Sustainable Development Goals (SDGs) - a call for world peace, dignity and prosperity on a healthy planet by 2030, but progress is far too slow! People created these challenges and only people can solve them. So "**What qualities, abilities or skills do we need to develop to build a sustainable future for people and planet?**"

We need your wisdom on this "One BIG Question Survey" and contribution of Asian wisdom to this global initiative and future IDG framework. Please fill and help to spread this survey available in multiple languages.
